The estimated costs for the development of various digital solutions. These prices exclude maintenance, ongoing support and deployment services. All prices are quoted in United States Dollars (USD), with options for ZWG payments upon agreement.

1.1. Website Development

(Focus on development of the site's code and design structure)

Development of responsive website code and design. This phase includes the creation of pages, integration of content provided by the client and structure.

Service Item	Pages	Estimated Price (USD)	Notes
Simple Website Development	Up to 5 pages	US\$100	<i>Development to completion.</i>
Standard Website Development	6 and above pages	US\$150 - US\$300	<i>Development to completion.</i>

1.2 Analytics Dashboards Development

(Focus on building the dashboard structure and connecting data sources for reporting)

Development of the dashboard's layout, visual elements and the necessary connections to specified data sources to display key performance indicators (KPIs) and business metrics.

Service Item	Estimated Price Range (USD)	Notes
Dashboard Development	US\$150 - US\$500	<i>Development to completion</i>

1.3. ERP System Development

(Focus on building/customizing the core system modules as per specifications)

Development and customization of specific modules within an Enterprise Resource Planning (ERP) system based on defined functional requirements. This includes coding, configuration and structural setup of the system components.

Service Item	Estimated Price Range (USD)	Notes
ERP System Development	US\$150 - US\$500	<i>For the development of specified modules/customizations.</i>

1.4. School Software Projects Development

(Development of various software projects for educational institutions, including AI/ML component integrations)

Development of custom software solutions for students. This includes incorporating Artificial Intelligence and Machine Learning functionalities as per project scope.

Service Item	Estimated Price Range (USD)	Notes
School Software Project Development (mini/dissertation projects)	US\$80 - US\$200	<i>From topic formulation, requirement gathering, data collection, development and analysis</i>

1.5 AI & Chatbot Development

(Design, build and deploy conversational agents and intelligent assistants)

Service Item	Estimated Price Range (USD)	Notes
Chatbot	US\$100-US\$ 350	<i>NLU pipeline (intent/entity), small training dataset, basic context handling, web widget / messaging channel integration, admin panel for updates.</i>

1.6 Mobile Application Development

(Native or cross-platform mobile apps including backend API development where required)

Service Item	Price Range (USD)	Notes
Mobile Application Development	US\$100 – US\$350	<i>Basic to moderate startup-level mobile app development.</i>
